**Submission Text:**

Sir/Madam,

We, along with virtually all the world, have made a commitment to the UN Declaration of Human Rights.

You must honour it. If you don't it reflects on you.

Like "morality", which is completely worldwide and universal, the UNDHR is flawless.

Either you stand for what is right or you don't.

Either you stand for decency, respect and totally independent and timely justice for all, or, down the line, we will all have "totalitarianism and widespread injustice". This is an irrefutable fact. Habeas Corpus is utterly indispensable to a free and better world.

Do the right thing, NO POLITICAL PRISONERS!!

Say NO to ANY "outlawing" of opinions regarding criticism of BAD POLICY.

This is the only way to advance our children's world.
