

# National Human Rights Consultation Submission

AGWW-7NY7QZ

**Name:** Ann Gregory

**Submission Text:**

The Australian Government have ignored my pleas for intervention and assistance for 9 years.  
I am a victim of corruption. A whistleblower.  
I fight for any sign of one of my human rights. There are none left.

I want to see more rights for whistle-blowers.  
More protection for whistle-blowers.  
More political intervention when their human rights are breached by the legal fraternity and the justice systems.

NSW NEED MORE HUMAN RIGHTS.

Human Rights -Principals Practices should be Australia Wide  
One set of rights for all Australians.

The UNODC Human rights laws (Treaty none the less) should be applied and followed to the letter - Australia wide.  
We can not have individual states protecting their citizens - it is not fair and equal.

Thanks

Ann
