

National Human Rights Consultation Submission

AGWW-7NT3X6

Name: max wilkinson

Submission Text:

I wish to oppose the concept that Australia isn't doing enough in the field of human rights and therefore needs a charter of rights to protect its citizens.

To move down this path will, in effect, take the power of the people that is invested in the Parliament and place it in the hands of the non- elected Judiciary. This would be present a seismic shift in our system of government, which once in place would be almost impossible to reverse.
