

# National Human Rights Consultation Submission

AGWW-7P7SCM

**Name:** peter harkin

**Submission Text:**

There is absolutley no reason to impose upon this nation a charter. Our Human Rights are well protected by existing laws.I am extremely concerned that in legislating such a code freedoms will in fact be significantly eroded under the guise of protecting rights. There are innumerable examples of this in Britian where the adoption of the European convention has seen the erosion of black letter law principles at all levels.
