Dear Sir/Madam

I am writing to you to consider your role as Human Rights Department , to consider that your department should consider other government departments. I am referring to the governments role in the Christian Heritage Forum.

Over the past couple of decades we have had great assaults on our christian heritage, some partly to do with the increased immigration of multifaiths, some to do with the lack of Christian Education in our schools. There has been significant moves to remove Christian teaching from our schools. ie. no Christian symbology in School;s at Christmas, no songs, no stories. This has moved into pre-school and kindergartens. Hospital staff are being told to remove Bibles and crucifix from rooms in hospitals so it does not offend people. Even though I'm offended when they are removed. There are moves on free speech that make it scary to say what you believe according to the Bible. ie. God doesn't like pornography, abortion, homosexuality, gay marriage. man did not evolve from the ape etc. I would like to feel free to express my views on the dangers of witchcraft, satanism, cults, religions that oppose the Christian faith. Freedom of speech and freedom to teach Christian teachings. TV is offensive to most christians. It is full of vile horrible teachings. It is offensive but nobody will remove it. Is the removal of the Bible from hospitals a villification of our faith.

There is also a big push by atheists to remove religion entirely from our culture. They say children should not be exposed to any religious teaching. Only scientific facts.

What I am saying is there is pushes and pulls from many lobbyists but I ask you how can we maintain our christian heritage in amongst all of this. ?

Please take some time to look at website on Christian heritage Forum. It is a government sponsored site . All policy in this category of religion should not oppose the Forums objectives as supported by the Federal government.

Yours sincerely
Susan Morrow
