

National Human Rights Consultation Submission

AGWW-7S9V94

Name: Carlene Strauss

Submission Text:

I am very concerned about the proposal to give judges the right to make decisions on human rights, as they have not been elected by the people. I would much prefer elected members make these decisions, as they are accountable to the people who have elected them. Please do not take away our rights, without VERY careful consideration. Our country has always prided itself on being a free country, that considers ALL people, and gives everyone the right to make their own decisions, according to their best interests. Please do not take away this right. Although we may not always agree with other peoples' views, we should uphold vigorously their right to hold such views. That is the basis tenet of a free country. Please do not jeopardise this right!

Carlene Strauss
