

National Human Rights Consultation Submission

AGWW-7RDV9H

Name: Georgie Enders

Submission Text:

To Whom it may concern,

I feel that the current marriage laws discriminate against people in same sex relationships. Because I am in a same sex relationship, I am denied access to a basic human right, the right to get married. I am not asking for any type of religious recognition or access to a religious ceremony but I would like to be able to have an authorised, recognised, legal marriage.

Thankyou,

Georgie
