

National Human Rights Consultation Submission

AGWW-7SA2FK

Name: Gillian Benington

Submission Text:

I do not believe we need a Charter or Bill of Rights in this country. Australia is a free and democratic country. We all have the opportunity to vote for politicians who represent our views. A Charter of Bill of Rights will give too much power to unelected judges instead. As a member of the Australian community I want to vote for those who are making decisions, and I am not able to vote for these judges. Let's not undermine Australia's democratic system.
