

National Human Rights Consultation Submission

Name: Katherine Harding

Submission Text:

I think that the right to life is the first and most basic right that needs to be acknowledged. It seems almost too obvious to write down but needs to be said because some people don't seem to believe that an unborn child has a right to be born.

We all want to have our rights, but unborn children are unable to appeal to a forum like this. Their desire to live must be considered when addressing human rights.
