

National Human Rights Consultation Submission

AGWW-7QYJ3L

Name: Robert Bicknell

Submission Text:

I call for a referendum to change to the Australian Constitution to enshrine Human Rights in our laws and society.

This should be supported by complementary legislation to clarify, extend and enable Human Rights for all people both within and outside Australia. This legislation should include provision for education on our Human Rights in the education systems of each state and territory.

While legislation for Human Rights is a positive step it is not sufficient to provide long term protection. For this we need a constitutional change.

Robert Bicknell
