

National Human Rights Consultation Submission

AGWW-7T27NH

Name: Cathal O Madagain

Submission Text:

The government must work toward establishing equal basic provisions of food, health care, and education for all individuals situated on the landmass for which the government is responsible, irrespective of national affiliation. As long as an individual is situated on the landmass for which a government is responsible, whether in an immigrant detention centre, prison, publicly funded housing or otherwise, that individual must be provided with these basic provisions.

The UN declaration on Human Rights must be upheld by every member government.
