

National Human Rights Consultation Submission

AGWW-7RDENN

Name: Melanie-Jane Onody

Submission Text:

Although I am heterosexual, I have a beautiful female cousin, and step brother who are gay. They are the most loving, caring talented people I know who sadly are not able to show their commitment to their other halves because of some very outdated laws. Marriage is supposed to be between two people that love and care about each other and want nothing more than to spend the rest of their lives with their partners.
